## GIVES 50,000 TREES FOR STATE HIGHWAY

Boone County One of Eight Benefitted by Stark Bros. Gift.

### PLANT ALONG ROAD

Apples, Peaches, Plums and Cherries to Be Grown at Roadside.

The most important and far-reaching step taken or contemplated in the plan for the beautification of the new state highway and other highways of the state is now being worked out by State Highway Commissioner Buffum and made possible by the gift to the state of 50,000 trees by Stark Bros. Nurseries and Orchards Company. The gift comprises five carloads and is made up largely of fruit trees including the choicest kinds of apples, peaches, plum, pear and cherry. The ornamental shade trees are maple and poplar.

For the last week and immediately following the personal selection of the trees Commissioner Buffum arranged with his forces of good roads enthusiasts in the counties to which the stock was apportioned for its planting at once after arrival. The distribution of the 50,000 trees was made evenly to the following counties: Audrain, Boone, Lafayette, Monroe, Linn, Lincoln, Lewis and Macon. In each case half a carload was billed to the Commercial Club in care of its president or secretary as follows.

"These trees are to be used for highways, churches and school house purposes only," says Mr. Buffum. "These gentlemen have been very kind in giving us the trees and loading them for us free of charge."

"I would suggest that hay frames be sent out with some straw which can be wet and placed over the roots, and the roots be kept damp until ready to put in the ground. They should not be thrown out and exposed to the wind. The teams should simply keep ahead of the planters. Sufficient teams should be started to take the different roads out of town, with about three men besides the driver."

Notice of the planting plans and probable time of shipment of the cars was sent out from Jefferson City, together with expert advice and instruction on how to prepare the trees for planting and how to plant them. This combined with the fact that the stock is in splendid planting condition, likewise the ground in the different counties, practically insures a heavy stand of the highest grade fruits and trees ever used for this purpose. Mr. Buffum's plan has aroused the greatest interest in every town. Long distance telephone messages have reached Stark Bros. from several of the points asking for the exact local freight bringing the stock so that the planting crews can meet the train. Holes already have been dug and plans have been made to plant the trees at night if necessary.

In expressing his satisfaction and appreciation over the generous gift, personally and for the state, Mr. Buffum remarked that this probably was the largest donation of trees for such a purpose ever made.

"I shall have a bill passed by the next legislature," he said, "giving each county the ownership of these trees so that the fruit may be properly cared for. The bill will provide that the funds from the sale of the fruit shall go into the road funds of the different counties. This will insure the necessary care and protection of the trees."

Before being made state highway commissioner Mr. Buffum, under the same arrangement with Stark Bros., and actuated only by his strong public spirit, planted a large number of fruit trees on the gravel roads of Pike County and as far as Troy in Lincoln County. This planting was successful and it has been noted this spring that the trees are loaded with blossoms, and will give splendid crops this year.

#### CADET DRILL PLEASED MAJOR

Officer from Jefferson City Approves of Students' Work.

"They are in good shape," This is the comment of Major A. Linxwiler, of Jefferson City, after his inspection of the cadets Saturday morning. The regimental review, inspection and guard mount were held on the West Campus. After this part of the inspection the cadets discarded the blue uniforms for khaki suits and went to the golf links, where the field exercises were held.

In the competitive drill between the companies, the cup was awarded to Company "B." Asbury Roberts won the medal in the competitive drill of the privates. Roberts was a member of Company "C."

**Turn Your Shirt Tails Into Drawers**  
**What Good Is a Shirt Tail Anyway?**

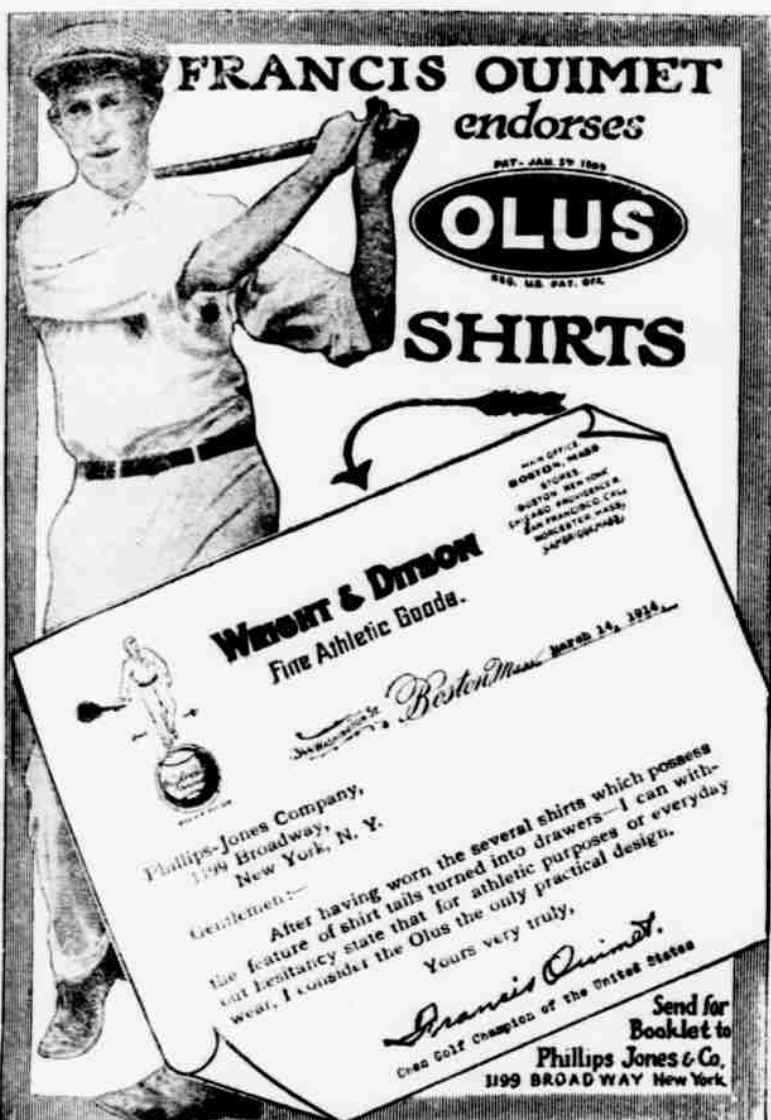

IN OLUS the outside shirt and underdrawers are one garment. This means that the shirt can't work out of the trousers, that there are no shirt tails to bunch in seat, that the drawers "stay put", to say nothing of the comfort and economy of saving a garment. OLUS is coat cut, opens all the way down—closed crotch, closed back. See illustration.

For golf, tennis and field wear, we recommend the special attached collar OLUS with regular or short sleeves. Special sizes for very tall or stout men. All shirt fabrics, in smart designs, including silks—**\$1.50 to \$10.00.**

OLUS one-piece PAJAMAS for lounging, resting and comfortable sleep. Made on the same principle as OLUS Shirts—coat cut, closed back, closed crotch. No strings to tighten or come loose. **\$1.50 to \$8.50.**
